

RENAULT
Passion for life

Renault CAPTUR

Explore your life

The Renault Captur embodies a new approach to vehicle design. Renault's first urban crossover, the Captur is agile, dynamic and elegant. Drawing on Renault's expertise, it explores new territory in terms of design, comfort... and pleasure!

A voyage through the Captur

A design expressed through smooth, flowing, even lines. The Renault Captur exudes originality with its two-colour paintwork and customisation options that allow each individual to match the car to his or her own lifestyle and desires.

Urban easy life

The better equipped you are, the more you can explore – whatever the terrain. The Renault Captur has everything to help you on your journeys: the Renault R-LINK Evolution 100% touch-sensitive connected multimedia tablet, high-performance engines, Hill Start Assist, seats with unzippable covers, even a hands-free card for added peace of mind...

With one hand, open the large Easy Life drawer: cameras, water bottles – everything can fit in, gently lit by colour LEDs. With the other, pick up your sunglasses from the storage space on top of the dashboard. Let the extraordinary ambiance gently embrace you!

There's so much to explore

Here we are, miles from anywhere. Under the tranquil sky, nature pulses with colour. Economical, environmentally friendly, discrete – the Renault ENERGY engines use all of their talents to enhance your journey. On the inside, everything is to hand, within sight and guaranteed to please. The exceedingly spacious Renault Captur offers its occupants a brightly lit passenger compartment.

Captur Style

The Captur is also strikingly elegant. Colours, lines and customisation abound. Sporty, bright and stylish, the Captur's two-tone bodywork, its diamond decals and its angelic shape are enough to make anyone envious. Its sliding rear bench seat lets you prioritise either rear passenger space or loading volume. Clubs and balls can be taken out of the boot in an instant, laughter filling the night. The challenges come thick and fast.

Renault Captur under the X-ray

Before producing the Renault Captur, we re-examined every detail: shapes, structural design intelligence, engine philosophy. The result: an interior space that can be modulated as desired, ubiquitous storage areas and clean, economical engines. And a simply irresistible personality.

R-LINK Evolution navigation system

Touch & explore

R-LINK Evolution, adventure at your fingertips!

With Renault R-LINK Evolution, the 100% touch-sensitive connected multimedia tablet with capacitive screen, you can explore a range of functionalities with ease: TomTom® Live* navigation, multimedia, telephone system... You can even reduce your fuel consumption and download a wide range of applications. With the new DAB* (Digital Audio Broadcasting) equipment, you benefit from a better audio experience.

Stay connected on the move!

With Renault R-LINK Evolution, access your contacts, your music and your web applications! All at your fingertips via the touch screen or steering wheel-mounted controls.

Using R-LINK Voice* intuitive voice control, you can even give an address, call a contact from your phone book, make a phone call or display an application.

Enjoy the pre-installed applications (email, R-LINK Tweet, Renault Assistance, weather forecast), the LIVE services* and Coyote Series*. With R-LINK Store, discover and download a range of other car apps (e-guide, fuel prices, etc.), info apps (Euronews, Metro, etc.) and practical apps (TomTom Places, etc.), along with apps for fun, culture or travel, not forgetting weather forecasts...

Media Nav Evolution, intuitive and simple multimedia.

With its on-board touch-sensitive tablet, it offers a number of smart, practical functions such as navigation, radio, music streaming, and hands-free telephony, using Bluetooth® technology. With Renault Media Nav Evolution, all the multimedia essentials are at your fingertips.

* Availability may vary depending on country.

Media Nav Evolution navigation system

Pure energy

Pleasant and reliable, sturdy and frugal, the Renault ENERGY petrol and diesel engines do not forget the qualities they owe to Formula One: technology, fuel economy, flexibility and endurance. It's no accident that the Renault Captur comes top of its category in terms of quality and performance...

ENERGY TCe 90 **100% turbo, 100% efficient.**

When it comes to petrol, the new ENERGY TCe 90 is an 898 cm³, three-cylinder turbo engine that delivers 90 hp without flinching! The overboost function brings the maximum torque to 150 Nm for more dynamic response and even better mid-range acceleration. The engine allows sharp acceleration from low speeds (90% available torque at 1,650 rpm), avoiding excessively frequent gear changes and ensuring pleasant city driving. It consumes only 4.9 L/100 km* and its CO₂ emissions are limited to 113 g/km*.

TCe 120 EDC **Power and control.**

The new TCe 120 EDC, meanwhile, combines power and controlled fuel consumption (5.4 L/100 km and 125 g/km** of CO₂). Responsive, lively and agile, it is both powerful and quiet. Its 120 hp delivers 190 Nm of torque at 2,000 rpm. For even greater driving pleasure, it is connected to a 6-speed dual-clutch EDC automatic gearbox.

ENERGY dCi 90 **Driving pleasure and frugality.**

As for diesel, the new ENERGY dCi 90 engine is quite simply the best of its generation! With combined-cycle fuel consumption of only 3.6 L/100 km* and CO₂ emissions of 95 g/km*, it guarantees an especially economical, pleasant drive. Response and power are available at low speeds: the 90 hp and the 220 Nm torque will take you wherever you want to go.

EDC automatic gearbox

For greater comfort and pleasure, the 6-speed dual-clutch EDC automatic gearbox is available with the TCe 120 and dCi 90 engines. Upshifting is fast and smooth, with no jerking or loss in acceleration. Fuel consumption is comparable to that of a manual gearbox.

*Official consumption and emissions according to applicable regulations. **Consumption and emissions pending certification.

Inside adventure

The superbly practical Renault Captur has set its sights on explorers, providing them with storage worthy of its name. The 11-litre Easy Life drawer can hold all of your valuables. Accessible and practical, this XXL storage space is a big new concept! Net pockets behind each front seat can be used to store newspapers, maps, notebooks or explorer guidebooks. As if that wasn't enough, you also have a closed storage compartment on top of the dashboard.

To ensure even greater comfort for everybody, there is ample interior space. The rear passengers enjoy knee room of up to 21.6 cm! The folding 1/3-2/3 rear bench has 3 seats, converts into a flat floor and slides on rails, allowing the Captur's volume to be adjusted and its passenger compartment arranged to suit your needs. The boot* floor can be put into multiple positions, removed or reversed (depending on the version).

*From 377 dm³ to 455 dm³ when the bench seat is in forward position.

* With RCAR kit. ** Temporary additional torque and horsepower. *** Fuel consumption and CO₂ emissions are certified using a standard, regulated method. It is identical for all manufacturers and allows vehicles to be compared. Fuel consumption in actual usage depends on the vehicle's usage conditions and equipment and the driver's driving style. To optimise fuel consumption, please refer to the usage tips available on our website www.renault.fr.

Accessories

Exterior

1.

1. Front and rear skid plates. Accessorise your Captur with this satin grey pack to reinforce the car's lower structure and give it more of an 'SUV' look. **2 and 3. Door mirror casings and exhaust pipe.** Make your Captur stand out by adding a sporty, stylish touch with these chrome parts. **4. Boot sill.** Made from brushed stainless steel. Protects your car's loading sill whilst adding a touch of style.

Transport

1. Roof locker. Can be fitted to the Renault roof bars in just a few minutes thanks to the fast attachment system to give additional loading space. Opens on both sides for ease of use and can be held open to make loading easier. **2. Transverse roof bars.** Tested under the most stringent standards, this set of two aluminium roof bars is guaranteed to be compatible with the vehicle. Quick and easy to install, the bars can be used to safely transport a roof locker, ski rack or bicycle rack. **3. Ski rack.** Very easy to use, supplied with 2 anti-theft systems, can be used to safely transport up to 4 pairs of skis (2 snowboards). **4. Bicycle rack.** Attaches to any type of tow bar and can be used to easily transport up to 3 bicycles. **5. Towbar with removable ball joint.** Preserves the aesthetic appearance of your Captur thanks to its ball joint that can be removed in a few seconds without the need for tools. A swan neck tow bar coupling is also available in the Renault network.

Accessories

Interior

1. Armrest. Opt for the front central armrest for better driving comfort and an extra storage compartment. Available in two colours: carbon or grey.

2. Restraining grille. This grille provides effective separation between the boot and the passenger compartment. Essential for ensuring the safety of your pet.

3. Child seat. Easy to install with the Isofix system. Ensure that your child is seated in complete safety for every journey. **4. Sun visor.** Take care of your passengers' comfort by opting for the rear sun visor set. **5. Rubber mats.** Protect the passenger compartment against dirt. Easy to clean by washing down with a hose. **6. Premium floor mats.** These passenger compartment mats provide effective protection for the original carpet while integrating perfectly into your Captur's interior. Available in four colours (orange, blue, silver, ivory), they match your vehicle's interior trim.

Multimedia and driving assistance

1. DVD player. Discover the Nextbase Click & Go DVD player with its two 9" screens, two brackets and two headsets. Attaches easily to the headrests. Can be used to watch DVDs, view JPG images or play MP3 files.

2. Tablet holder. This stand fixes to the rods of the front headrests and holds a multimedia tablet, allowing rear passengers to read or watch video in complete comfort. **3. Parking distance control.** This system makes manoeuvring and parking quicker and easier. **4. Alarm.** The essential item for ensuring the security of your vehicle. Effectively reduces the risk of the vehicle or contents being stolen.

Z3	Height under rear shelf	595

Renault Services. Serenity effect.

Renault maintenance contracts

Do you want to save time and avoid hassle? Then scheduled servicing is the choice for you. There are times and periods during which your Renault needs special attention: periodic servicing, fluid top-ups, verification of wearing parts and their replacement if necessary, in keeping with manufacturer recommendations.

You get complete peace of mind:

- The expertise of the Renault network and the quality of Renault genuine parts.
- Greater value retention for your vehicle upon resale.
- Cost-effective servicing for your vehicle.

Warranty extension contracts

At Renault, during the period following the purchase of your new or second-hand car, we handle all of the repairs and replacements of any mechanical, electrical or electronic parts that may prove defective. The extended warranty prolongs the benefits of your manufacturer warranty. You'll get even more peace of mind.

Drive without keeping an eye on the meter:

Drive with confidence. Benefit from a Manufacturer's Warranty for X years or XXX 000 km*: free parts and labour repairs, 24h breakdown assistance with repair or recovery, Paintwork Warranty for X years unlimited mileage, Anticorrosion Warranty for XX years unlimited mileage.

- Whichever comes first, unlimited mileage during the first two years.
- Your car will always be in the hands of the best network of experts.
- Genuine parts for all jobs.
- Warranty of up to 7 years and/or 200,000 km.

Connected services

With Renault R-LINK Evolution, recognised as Europe's best multimedia system**, you can also enjoy services inside your car. Innovative and intuitive, they provide today's essential functions: stay connected to the outside world, get driving assistance features to optimise your route and some of the most advanced safety alerts available.

Only the best:

- Sat-nav: maps pre-installed in your vehicle, along with free updates for the first year. If you want to extend your subscription, just download online from the R-LINK Store.
- Traffic info: view traffic conditions on your route in real time.
- App catalogue: tailor your on-board experience whenever you like by downloading new apps from the R-LINK Store, such as Coyote, Michelin, R-Sound Effect, rest time management, RSS feeds, etc.

* Depending on country.

The Renault network undertakes to

- Respond to your online requests in under xx working hours.
- Guarantee you a test drive in a vehicle from the range of your choice, immediately, or by appointment within xx working days.
- Keep you informed about the progress of your order until delivery.
- Deliver your vehicle on time and for the agreed price.
- Ensure you are not charged for any work carried out without your agreement.
- Provide a one-year parts and labour guarantee for all work carried out in our workshops that you have paid for.
- Reward your loyalty by giving you special offers on xx.
- This undertaking may vary from country to country.

Safety for all

Safety is one of Renault's core priorities. The Captur is a perfect example: its active and passive safety features are among the most innovative and efficient available.

Protection.

Reinforced structure, high-efficiency front airbags, head/chest side airbags, pressure sensor to detect impact, seat belts with pre-tensioners and force limiters (front seats), anti-whiplash headrests, force limiter function (rear side seats), anti-submarining front seats (Fix4sure). Three Isofix 3-point seat attachments (front + rear side seats).

Hill Start Assist.

When starting the vehicle on a hill, brake pressure is automatically maintained for two seconds, giving the driver time to manoeuvre.

Parking distance control.

To facilitate parking manoeuvres, the parking distance control system alerts you to any obstacles behind the car with a series of increasingly rapid beeps. The system can be equipped with a reversing camera that sends the image to the navigation system screen and displays guidance aids.

Corner lighting.

When taking corners, the fog light on the side nearest the bend lights up automatically to give you a wider field of vision.
